

Massimo Pellizzari was born in 1970, in Bolzano, Italy and got his Master Degree in Materials Engineering in 1996 at the University of Trento. In 2000 he got a PhD in Metallurgical Engineering at the University of Padova. Since 2006 prof. Pellizzari is associate professor at the University of Trento. His research activity is mostly focused on heat treatment and surface engineering of steels, deep cryogenic treatment, properties of tool steels, special cast irons, development of powder metallurgical tool steel by ball milling and Spark Plasma Sintering and additive manufacturing. He's author of more than 70 papers in peer reviewed international journals and, since 2015, he's member of the executive committee of the International Federation for Heat Treatment and Surface Engineering (IFHTSE).
